

AMIR HAMZA

SENIOR UNITY DEVELOPER | UNITY DEVELOPER

ah408567@gmail.com | [+92 316 7740735](tel:+923167740735) | Pakistan | [Portfolio](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Unity Developer with 6+ years of experience building, optimizing, and maintaining mobile, 2D, 3D, multiplayer, VR, and AR games using Unity and C#. Strong hands-on background in gameplay programming, AI/NPC systems, scalable architecture, mobile performance optimization, memory profiling, vehicle and interaction systems, debugging, reusable tooling, and production workflows. Experienced with SOLID principles, design patterns, State Machines, Scriptable Objects, event-driven architecture, and AI-assisted development using OpenAI Codex with Unity MCP Server.

TECHNICAL SKILLS

Unity & C#: 2D/3D, Mobile, Multiplayer, VR, AR, Gameplay Systems, AI/NPC Behavior, Vehicles, Inventory, Cutsscenes, Interaction Systems

Architecture: SOLID, Design Patterns, State Machines, Scriptable Objects, Event-Driven Architecture, Modular Systems, Reusable Frameworks

Optimization: Memory Profiling, Performance Profiling, Low-End Device Optimization, Runtime Optimization, Crash Reduction, Asset Optimization

AI & Tools: OpenAI Codex, Unity MCP Server, AI-Assisted Coding, Debugging, Refactoring, Rapid Prototyping, Git, CI/CD, Automated Tooling

PROFESSIONAL EXPERIENCE

Senior Unity Developer

Dev cynx - Lahore | Jan 2026 - Present

- Engineer and maintain gameplay systems for multiplayer, VR, mobile, and idle tycoon projects.
- Architect scalable Unity systems and reusable frameworks across gameplay, optimization, and production workflows.
- Profile and optimize runtime performance, memory usage, asset loading, and mobile builds.
- Translate gameplay and product requirements into production-ready Unity solutions.
- Use OpenAI Codex with Unity MCP Server to accelerate C# coding, debugging, refactoring, rapid prototyping, repetitive editor tasks, and technical investigation.

Senior Unity Developer

Hazel Mobile - Lahore | Oct 2022 - 2025

- Engineered and maintained large-scale mobile game systems using Unity and C#.
- Translated product and gameplay requirements into modular, reusable systems and internal tools that accelerated feature delivery.
- Enhanced code quality, architecture consistency, maintainability, and production stability across shipped titles.
- Collaborated with designers and artists to integrate gameplay content and optimize assets for mobile production.

Senior Unity Developer

OZI PUB - Lahore | Oct 2020 - Oct 2022 | Promoted from Junior Unity Developer

- Architected scalable systems for high-traffic mobile games using C#, SOLID principles, and design patterns.
- Conducted performance audits and memory profiling for low-end Android devices.
- Optimized runtime memory, loading behavior, gameplay systems, and overall stability across production projects.
- Refactored legacy systems, diagnosed critical production issues, and built reusable gameplay components.

Junior Unity Developer

COMSATS Software House - Sahiwal | Jul 2019 - Jun 2020 | Transitioned from Intern

- Built 2D/3D Unity prototypes and programmed gameplay mechanics, player controls, UI, and supporting systems.
- Applied object-oriented programming, Unity fundamentals, debugging, and common design patterns throughout development.

KEY TECHNICAL ACHIEVEMENTS

- Reduced art-to-engine integration overhead and time-to-market by approximately 40% through technical constraints and asset optimization standards.
- Contributed to an approximately 40% reduction in crash rates through performance audits and memory profiling focused on low-end devices.
- Established reusable internal libraries, tools, and gameplay frameworks to reduce repeated implementation work and technical debt.
- Integrated AI-assisted workflows with OpenAI Codex and Unity MCP Server to improve coding speed, debugging efficiency, rapid prototyping, and repetitive development tasks.

EDUCATION

BS in Software Engineering (BSSE) - COMSATS University Islamabad, Sahiwal | 2016 - 2020

Selected commercial projects and shipped titles: [Portfolio](#)
